The Quarterly Report

The Quarterly Report provides a summary of the Professional Regulation Division's activities and achievements during the past quarter, April 1 to June 30, 2014. The purpose of the Quarterly Report is to provide information on the production and work of the Division during the quarter, to explain the factors that may have influenced the Division's performance, and to provide a description of exceptional or unusual projects or events in the period.

The Professional Regulation Division

Professional Regulation is responsible for responding to complaints against licensees, including the resolution, investigation and prosecution of complaints which are within the jurisdiction provided under the *Law Society Act*. In addition the Professional Regulation provides trusteeship services for the practices of licensees who are incapacitated by legal or health reasons. Professional Regulation also includes the Compensation Fund which compensates clients for losses suffered as a result of the wrongful acts of licensees.

See Appendices for a case flow chart describing the complaints process as well as a description of the Professional Regulation division processes and organization.

SECTION 1

REPORT HIGHLIGHTS

Highlights of Quarterly Performance

The Division

The Law Society's intake of new cases has tended to fluctuate during the past three years such that predicting future trends has become more difficult. During the first two quarters of 2014, the Law Society received fewer new cases than the first half of 2013. Reviews of the nature of the incoming cases and environmental scans have failed to disclose a reason for the fluctuations. It is expected that the intake of new cases in 2014 will be lower than in 2013, which was a year in which the Law Society experienced significant increases. As a result of the lower intake of cases in 2014, the Division's inventory has reduced.

Complaints Resolution

The Complaints Resolution department received a significantly reduced new caseload in the first six months of 2014 in part due to the reduced overall intake, and also through diversions in cases to permit the department to complete its older cases. These case management efforts have been successful in reducing the department's inventory to levels that are more sustainable and more current.

Investigations

During this period the Investigations department received fewer new cases than in the same period in 2013. As with Complaints Resolution (above) this is due in part to strategies to divert cases to permit timely completion of matters already in the inventory. The reduced intake is also a reflection of the reduced overall intake for the Division. The department has been engaged in a project to complete complex cases that are ongoing on a priority bases.

Discipline

There was a slight decrease in the inventory of cases in Discipline during this period when compared with the same period in 2013. At the end of the period there were 185 licensees or applicants with files in the department relating to 523 complaints. Twenty-five notices were issued in the second quarter to commence new proceedings, and thirty-four matters were completed with decisions of the Hearing or Appeal Division. There were 13 appeals commenced including five new appeals to Divisional Court.

PERFORMANCE IN THE PROFESSIONAL REGULATION DIVISION

Graph 2A: Complaints¹ Received in the Division

The number of new complaints received in the first half of 2014 (2406) decreased by 11% when compared to the number received in the first half of 2013 (2710) and by 3% when compared to the number received in the first half of 2012 (2489). The analysis of new complaints/cases received (below) shows that, in Q2 2014, the number of complaints/cases decreased for all groups when compared to the numbers received in Q1 2014 and in Q2 2013.

The inventory in the Division at the end of Q2 2014 was approximately 6% lower than at the end of Q1 2014 and approximately 16% lower than the inventory in the Division at the end of Q2 2013. The breakdown of the inventory in the chart below demonstrates that decreases since the end of Q2 2013 have occurred in the inventory of complaints against all groups.

3.2 – Complaints Resolution

Graph 3.2C: Complaints Resolution – Department Inventory

Since a high of 1076 cases at the end of Q2 2013, the department’s inventory has decreased by 30% to 750 cases at the end of Q2 2014. The inventory continues to consist mostly of complaints against lawyers.

3.2 – Complaints Resolution

Graph 3.2D: Complaints Resolution - Median Age of Complaints

The department's median age decreased from the previous quarter and remains within the department's target range of 150-170 days.

3.2 – Complaints Resolution

Graph 3.2E: Complaints Resolution – Aging of Complaints

The above graph sets out the spectrum of aging in the department’s inventory (excluding reactivated cases) at the end of each of the 5 quarters displayed. Excluding reactivated cases, Complaints Resolution’s department inventory at the end of Q2 2014 was 687 cases involving 624 subjects. The age distribution of those cases was:

Less than 8 months	534 cases involving 487 subjects
8 to 12 months	100 cases involving 95 subjects
More than 12 months	53 cases involving 42 subjects

The goal is to reduce the proportion of cases in the older time frames and increase the proportion of cases in the youngest time frame. However, it is recognized that there will always be cases that are older than 12 months in Complaints Resolution for the following reasons:

- Newer complaints against the lawyer/paralegal are received. In some cases existing cases await the completion of younger cases relating to the same licensee;
- Delays on the part of licensees in providing representations and in responding to the investigators’ requests. In a number of instances, the Summary Hearing process is required;
- Delays on the part of complainants in responding to licensee’s representations and to investigators’ requests for additional information; and
- New issues raised by the complainant requiring additional investigation

3.3 –Investigations

Graph 3.3A: Investigations - Input

The input of cases into the Investigations department in the first half of 2014 (620) decreased by 21% from the input in the first half of 2013 (785) and by 7% from the first half of 2012 (663).

The number of cases closed/transferred out of the department in the first half of 2014 (621 cases) was approximately 6% lower than the number completed in the first half of 2013 (663) but almost the same as the number completed in the first half of 2012 (625 cases).

3.3 – Investigations

Graph 3.3C: Investigations – Department Inventory

As the input of cases (320) into the department exceeded the number of cases completed by the department in Q2 2014 (297), Investigations' inventory increased slightly (by 3%) from 1104 cases at the end of Q1 2014 to 1136 cases at the end of Q2 2014. However, the department's inventory at the end of Q2 2014 (1136) was approximately 8% less than its inventory at the end of Q2 2013 (1234)

3.3 – Investigations

Graph 3.3D: Investigations - Median Age of All Complaints

Investigations' median age at the end of Q2 2014 was slightly lower than the median age at the end of Q1 2014, decreasing from 270 days to 266 days.

3.3 – Investigations

Graph 3.3E: Investigations – Aging of Complaints

The above graph sets out the spectrum of aging in the department’s inventory (excluding reactivated and mortgage fraud cases) at the end of each of the 5 quarters displayed. The inventory of Investigations at the end of the second quarter of 2014, excluding reactivated and mortgage fraud cases, was 965 cases involving 731 subjects. The distribution of those cases was:

Less than 10 months	549 cases involving 433 subjects
10 to 18 months	256 cases involving 178 subjects
More than 18 months	160 cases involving 120 subjects

While the department strives to reduce the proportion of cases in the older time frame and to increase the proportion of cases in the youngest time frame, it is recognized that there are cases that are older than 18 months in Investigations for the following reasons:

- The investigator has to wait for evidence from a third party (i.e. not the complainant or the licensee/subject), for example psychiatric evaluation, court transcripts, or a key witness;
- Newer complaints are received against the licensee/subject. In order to move forward together to the Proceedings Authorization Committee, the older cases await the completion of younger cases;
- A need to coordinate investigations between different licensees/subject where the issues arise out of the same set of circumstances (e.g. a complainant complains about 2 lawyers in relation to the same matter);
- Multiple cases involve one lawyer. These investigations are complex and time consuming;
- Where capacity issues are raised during a conduct investigation.

3.3 – Investigations

(b) Mortgage Fraud Cases

The above graph sets out the spectrum of aging in the department’s mortgage fraud case inventory at the end of each of the 5 quarters displayed. The inventory of mortgage fraud cases at the end of the second quarter of 2014 was 100 cases involving 84 subjects. The distribution of those cases was:

Less than 10 months	49 cases involving 41 subjects
10 to 18 months	30 cases involving 24 subjects
More than 18 months	21 cases involving 19 subjects

As noted above, the department strives to reduce the proportion of mortgage fraud cases in the older time frame and to increase the proportion of cases in the youngest time frame. However, it is recognized that there will always be mortgage fraud cases that are older than 18 months in Investigations for the reasons cited above, particularly:

- When newer complaints against the licensee/subject are received, existing investigations may have to await their completion in order that all the cases can be taken to Proceedings Authorization Committee together.
- There is a need to coordinate investigations between different licensees/subject where the issues arise out of the same set of circumstances (e.g. a complainant complains about 2 lawyers in relation to the same matter).
- There are multiple cases involve one lawyer resulting in greater complexity.

* In response to the number of UAP complaints being received in the division, a new allegation of “Practising Outside the Scope of Licence” (“POL”) was added to the division’s case management system in Q1 2010. This allows for improved identification of the nature of these complaints. In 2014 Q2, complaints alleging practicing outside the scope of licence were received in a total of 11 cases. Prior to Q1 2010, these would have been included in the UAP figures.

As noted in the chart above, in the first half of 2014, the Division received 12% fewer UAP complaints (116) than it did in the same period in 2013 (131).
